

# RECONGNIZING OUR TEAMSTERS ACROSS METRO VANCOUVER

**Murwan Salame (Teamsters Local 31 Business Agent), Lynda, Shane, and Vicky.**

The Iona Island Wastewater Treatment Plant was commissioned in 1963 and today serves approximately 875,000 residents. The plant serves residents in the Vancouver Sewerage Area, which includes Vancouver, parts of Burnaby and Richmond, the University Endowment Lands, and UBC. The facility processes about 200 billion litres of wastewater each year. At the heart of this essential work is an **exceptional Teamsters team**. Pictured above are:

- Sister **Lynda**, WWTP Clerk, and a proud and dedicated Teamsters sister for almost **10 years**.
- Brother **Shane**, Team Lead at QC Control Lab, with almost **30 years** of committed service as a Teamsters brother.
- Sister **Vicky**, Lab Technician, a dedicated and committed Teamsters sister for over **7 years**.

We extend our **deepest gratitude** to Lynda, Shane, Vicky, and all the **Super Teamsters** at the Iona Island plant for the exceptional work that you do. Your dedication, professionalism, and teamwork keep our communities safe and healthy every day.

And a **special thank you** to all our incredible **Metro Teamsters members** across the region. Your continued support and solidarity make all the difference.

**On behalf of President Stan Hennessy and your Union, thank you for your hard work and support.**
