

RECONGNIZING OUR TEAMSTERS ACROSS METRO VANCOUVER

Dena Nesbitt, Murwan Salame (Teamsters Union Local 31 Business Agent), Ninni Bandekar

The Lions Gate Wastewater Treatment Plant provides primary treatment to wastewater from approximately 174,000 residents of the District of West Vancouver, the City of North Vancouver, and the District of North Vancouver. The Lions Gate plant's treatment capacity is seven times as great as when it opened in 1961. At the heart of this essential work is an **exceptional Teamsters team**. Pictured above are:

- Sister **Dena Nesbitt**, WWTP Clerk, and a proud and dedicated Teamsters sister for over **22 years!**
- Sister **Ninni Bandekar**, Laboratory Technician and a committed Teamsters sister for almost **2 years**.

We extend our **deepest gratitude** to Dena and Ninni for the exceptional work that they do. Thank you, Dena and Ninni, for your incredible service and dedication! Your dedication, professionalism, and teamwork keep our communities safe and healthy every day.

And a **special thank you** to all our **Metro Teamsters members** across the region. Your continued support and solidarity make all the difference.

On behalf of President Stan Hennessy and your Union, thank you for your hard work and support.
