

Subject: Essential Worker Vaccination Update

Good morning,

As of March 13, 2021, the Pandemic Working Group (PWG) has not received any updated direction from the Provincial Health Authority or Provincial Government in regards to essential workers (including police) being able to book priority COVID-19 vaccine appointments.

Meetings regarding priority vaccination for essential workers are ongoing and being discussed at the government level. The PWG will communicate further updates as soon as information is confirmed.

If officers have booked an appointment under the mistaken assumption that police officers are eligible, these appointments should be cancelled.
