

**Forwarded on behalf
of
Silver Commander, Inspector Ian Upton**

The current COVID-19 crisis has placed unprecedented demands on personal sanitation supplies. Although we have supplies in reserve, we are anticipating shortages as many supplies are on back order. As a result, the following ration strategy will be applied:

1. All Isagel and personnel hand wipe supplies will be prioritized for distribution to Patrol and other front-line personnel.
2. All Patrol personnel shall NOT throw out empty Isagel bottles. Please return all empty 115ml Isagel bottles to the Kiosk attendant for eventual refill
3. All Patrol personnel must obtain resupplies of Isagel liquid and hand wipes through their respective chain of command
4. All non-operational personnel and civilian staff are encouraged to wash hands frequently and follow the COVID-19 personal health guidelines provided by Public Health Authorities.
5. Alcohol wipes for cleaning of personal work stations will continue to be issued as needed and as supplies last

Regards,

Ian Upton Inspector 1590
Deputy Silver Commander
